00:15:43 Scott Powell: I hope so  
00:25:17 Belinda K (Not Don): Roll Tide!!  
00:41:24 Belinda K (Not Don): Feel free to put your answer in chat also  
00:42:07 Rick Penser NJ: domestic violence/shaken baby  
00:42:11 Jesse Pacht -VT: It can be challenging to encourage new riders to wear helmets in a state like New Hampshire that does not require a helmet. It can come off as "soap boxing". Luckily the BRC and H-D content always encourage the use of helmets as a good "choice".  
00:43:32 Jesse Pacht -VT: Work or employment related?  
00:45:53 Bill DeMoise - Greer, SC: Why is motorcycle included in motor vehicle and atv is a separate category?  
00:47:14 Johanna Noble: Replying to "Why is motorcycle in..."  
It's pretty common. Only recently have we gotten motorcycle, ATV, and snow mobile separated, in alaska,  
00:49:19 Belinda K (Not Don): - How can I recognize the potential long-term effects of a previous brain injury(ies)?-What exactly happens inside the skull when a brain injury occurs?- Are there things that can be done if I recognize that might be suffering from the long-term impact of a prior injury?  
00:49:58 elizabethlabby: Sorry, have to sign-off. Work hours here in Hawaii. Great discussion!  
00:50:36 Bill DeMoise - Greer, SC: How do we answer on a topic we have little knowledge?  
00:52:01 Jesse Pacht -VT: Need to respond to a work alarm. Bummer. See y'all later.  
00:58:11 Ray Ochs: What has been the most effective way to encourage individuals to actively prevent TBI? In our case, encourage helmet use.  
00:58:12 Bill DeMoise - Greer, SC: Is loss of memory of the accident a attribute of shock protecting you or is it a degree of TBI?  
00:59:04 Chuck Maynard Carolinas: Reacted to "Is loss of memory of..." with 👍  
00:59:11 Robin Dean - ID: Get the STUDENTS to invent the "war story"  
01:02:10 Rick Penser NJ: Where does the term concussion fall into this discussion?  
01:02:17 Robin Dean - ID: My question is ... how do my fellow coaches inspire curric driven discussion + the safer choice without doom/goom, meaning strictly a positive learning environment?  
01:03:30 Robin Dean - ID: Great book: diary of a part time Indian. Kid had water in the brain and constant brain injuries.  
01:03:56 Jon Barthel - NH:My question is ... how do my fellow coaches inspire curric driven discussion + the safer choice without doom/goom, meaning strictly a positive learning environment?Seems like a good discussion group question...  
01:04:23 Murrae Haynes: 👍  
01:05:19 Johanna Noble: What are the active strategies TBI organizations are using to educate the communities.  
01:06:00 Jon Barthel - NH:Replying to "What are the active ..."

And how can we pivot that to serving the MC community

01:07:42 Belinda K (Not Don): how do my fellow coaches inspire curric driven discussion + the safer choice without doom/goom, meaning strictly a positive learning environment?

01:44:01 Jon Barthel - NH:How might an injury to you alter the life of those around you

01:44:31 Maness: Who would take care of you if you were hurt...?

01:44:47 Rick Penser NJ: What is the ultimate goal of every ride?

01:46:42 Johanna Noble: How many licks does it take to get to the center of the tootsie pop?

01:47:32 Maness: Every "lick" is different... :)

01:51:44 Johanna Noble: Think about the narrative of seat belts...when many of us were children, it wasn't standard in a vehicle. Then as life moved forward and advocacy progressed, seat belts became a normal reinforced behavior for my children that are in their 20's.

Helmet wear advocacy will do the same thing.

01:51:57 Jason Morris (TX): Reacted to "Think about the narr..." with 👍
